Minibus Day Trip Brecon Beacons Waterfalls

The Brecon Beacons National Park is centred on the Brecon Beacons range of hills in South Wales. Throughout the national park there is a diverse range of natural beauty from rolling countryside and valleys, wide open hillsides and wildly beautiful forests to lakes, waterfalls and caves.

During our walk we will explore the Brecon Beacon waterfall country. Nestled into the southern slopes of the Fforest Fawr massif, waterfall country is one of the most beautiful and popular parts of the Brecon Beacons National Park. We will do a circular walk of about 15-18km along several of the lovely waterfalls this part of the national park has to offer. To give the trip a nice end we may stop for dinner in a pub on the way back.
